

Important Note for Submission Criteria: Only projects completed on 1st January 2025 or later are eligible for nomination.

CONSTRUCTION WORLD Architect & Builder (CWAB) Awards 2026

Nomination Form – Noteworthy Projects-Interiors

The 21st CWAB Awards 2026 embrace the theme of **‘Materiality’**.

Materiality in architecture goes beyond the selection of materials—it defines how buildings are perceived, experienced, and sustained over time. It shapes texture, light, durability, and atmosphere, influencing both performance and emotional connection.

In today’s built environment, material choices are increasingly driven by sustainability, context, and innovation—where every surface and structure carries meaning, efficiency, and responsibility.

Project Details

- Project Name:
- Location:
- Type of project: (Need to create a dropbox for Residential, Commercial, Hospitality, Retail, Institutional, Miscellaneous)
- Size of the project (in sq ft):
- Cost of the project:
- Project completion date:
- Currently in use (Y/N):
- GST Number:
- Has the project received any significant awards since January 2023?
If yes, please specify:
- Define the uniqueness of the project based on the design style that differentiates it from similar projects:
- Have you submitted this project to CWAB before (Y/N):
If yes, has the project been a winner at the CWAB awards? Please specify the year and the category:

PLEASE GIVE PROJECT DETAILS WITH RESPECT TO THE FOLLOWING:

1. Tell us how the Project reflects the theme of ‘Materiality’ and highlight three material choices that make the project noteworthy: (approx. 200 words)
2. Please explain the design concept (up to 50 words):
3. How have AI and technology been leveraged to optimise costs, reduce waste, and enhance user experience? (up to 100 words):
4. Have any unconventional or disruptive techniques been employed in the project? If so, what were they and why were they chosen? (up to 100 words)

5. How has sustainability been incorporated throughout the design and implementation process, from site preparation to waste management? (up to 100 words):
6. Please elaborate on materials used in the project and factors that prompted their selection (up to 100 words):
7. Please mention brands incorporated in the project (flooring, bathroom fittings, appliances, lighting, etc.):
8. Would you like to share references of your customers with their address and contact information? If yes, please share their details below:
